PROJECTS

PORTFOLIO

- Developed a fully responsive portfolio website using HTML, CSS, and JavaScript. The site showcases my skills, projects, and professional background, allowing users to easily navigate through my work. Key features include a downloadable resume and a contact form for inquiries, enhancing user engagement and facilitating communication. This project demonstrates my proficiency in front-end development and my commitment to creating a user-friendly experience. ->[GitHub.](#)

QUIZ MASTER

- Created a responsive quiz master application utilizing HTML, CSS, and JavaScript. The platform allows users to customize their quiz experience by selecting the topic, setting a time limit for each question, and determining the total number of questions. The application features real-time feedback, highlighting correct answers in green and incorrect ones in red. At the end of the quiz, users receive a summary of their performance, showcasing my skills in interactive web development and user experience design.-> [GitHub.](#)
